## EDUCATION

**University of Central Florida**                                                                              Orlando, FL
*B.S in Information Technology, Minor in Digital Media*                         *Expected Graduation: May 2026*

## EXPERIENCE

**Web Developer**                                                                                  Mar. 2025 – Present
*Center for Distributed Learning - Techranger*                                              *Orlando, FL*
- Assisting in the development, maintenance, and optimization of web applications, actively contributing to front-end tasks to ensure a seamless and intuitive user experience across platforms.
- Collaborating with cross-functional team members to enhance the accessibility, usability, and functionality of online learning tools and resources, ensuring a positive experience for all users.
- Participating in ongoing web development projects by supporting design and development efforts that cater to the evolving needs of UCF's diverse online learning community.

**UX/UI and Web Development Intern**                                                    Aug. 2024 - Present
*Limbitless Solutions Inc.*                                                                           *Orlando, FL*
- Develop and maintain Limbitless's sites by using HTML, CSS, and WCAG standards to ensure accessibility and responsive design across devices.
- Designed wireframes, prototypes, mockups, and UI concepts using Adobe XD and collaborated closely with the research team to deliver accurate, visually appealing outputs.
- Implemented features that contributed to reliable and accessible digital systems for the limb-difference community.

**Website Designer**                                                                              Jul. 2024 – Feb. 2025
*Office of Student Involvement*                                                                     *Orlando, FL*
- Designed and maintained event websites, utilizing HTML, CSS, and WordPress for responsive and accessible UI.
- Collaborated with design teams to incorporate cohesive graphics for UCF events and campaigns.
- Led the redesign of a departmental website to improve usability, modernize the UI, and accessibility.

## PROJECTS

**Mend** | *React, Tailwind, HTML, CSS, Typescript, Figma*
- Led the front-end development and design of Mend, a journaling app that uses AI to analyze entries and suggest healthy coping strategies, utilizing React, Tailwind, and Figma.
- Conducted user research and gathered feedback, iterating on designs to ensure a seamless, user-centered experience and improving the app's usability and accessibility.
- Collaborated with cross-functional teams to integrate AI-powered features, ensuring smooth front-end functionality and responsiveness across various devices.

**Capistrano Distillery Website** | *React, Tailwind CSS, HTML, CSS, JS*
- Worked on the full development of a responsive and user-friendly website for Capistrano Distillery, from concept to deployment, collaborating directly with the client to gather requirements and provide feedback.
- Collaborated with a designer and implemented all core pages, including Home, About Us, and Products, as well as an appointment booking system.
- Ensured accessibility and responsiveness across devices, adhering to modern UX/UI standards.

**Portfolio Site** | *Next.js, HTML, CSS, Typescript*
- Designed and developed a portfolio website to showcase my graphics, projects, and experiences.
- Incorporated mobile-first design principles, ensuring smooth usability and accessibility across all device types.
- Revamped the site in Next.Js to incorporate enhanced interactivity, modern UX/UI practices, and improved accessibility by optimizing contrast ratios, screen reader compatibility, and cross-browser functionality.
